Goals and Objectives

September 26, 2013

The Strategic Plan provides the roadmap between the “current state” in 2013 and the “desired state” in 2018.
High-level Goals

- Student Success
- Talent Development
- Academic Innovation
- Community Engagement
- Institutional Excellence
Student Success

Provide a supportive, student-centered educational environment that promotes academic success, global awareness, and timely graduation.

1.1 Communicate and assess clear educational goals and learning outcomes that promote academic success and workplace values

1.2 Design and strengthen integrative support services for our diverse student body

1.3 Promote global and multicultural perspectives through curricular and co-curricular programs

1.4 Enhance the student experience

1.5 Promote financial access and affordability for students
Talent Development

*Increase educational attainment levels of the region by serving more students, producing superior graduates, and promoting lifelong learning.*

2.1 Produce skilled graduates prepared for the workforce
2.2 Assist graduates in the transition from college to work
2.3 Enroll more students to increase educational attainment levels
2.4 Recruit more transfer students into baccalaureate programs
2.5 Improve college readiness across the region and state
2.6 Inspire passion for lifelong learning across the region
Academic Innovation

Advance academic programs that are innovative, distinctive, experiential, and transdisciplinary.

3.1 Expand applied and experiential learning opportunities across the curriculum

3.2 Develop and expand transdisciplinary programs

3.3 Develop targeted programs and course delivery methods for post-traditional students

3.4 Enhance the quality, relevance, and sustainability of the academic program portfolio

3.5 Expand relevant programs in high-demand fields to meet regional workforce needs
Academic Innovation

Transdisciplinary Learning:
An approach to teaching and research that explores a relevant issue or problem by integrating the content, methods, and perspectives of multiple disciplines to extend our knowledge beyond any single-specific domain and deepen our understanding of real-life experiences.
A Continuum of Disciplinary Integration

**Transdisciplinary**
Researchers from *different disciplines work jointly* to develop and use a shared conceptual framework that synthesizes and extends discipline-specific theories, concepts, and methods, to create new approaches to address a common problem.

**Interdisciplinary**
Researchers from *different disciplines work jointly* to address a common problem. Some integration of perspectives occurs, but contributions remain anchored in their own disciplines.

**Multidisciplinary**
Researchers from *different disciplines work sequentially*, each from their own discipline-specific perspective, with a goal of eventually combining results to address a common problem.

**Unidisciplinary**
Researchers from a *single discipline* work together to address a common problem.
